

CCTV & ACCESS CONTROL SECURITY SYSTEMS

PROFESSIONAL TRAINING PROGRAM

Learn. Practice. Build Your Career in Electronic Security.

The security industry is evolving rapidly. Modern CCTV and Access Control systems are no longer just about cameras and wiring—they involve **IP networking, software, system configuration, troubleshooting, access management and system integration.**

Our training is designed to help you develop the practical, industry-relevant skills needed to work confidently with modern security systems.

WHY CHOOSE THIS CAREER?

Growing Demand for Skilled Professionals:

Businesses, residential communities, offices, warehouses, institutions and industries are investing continuously in electronic security. This creates opportunities for trained professionals who can:

**INSTALL • CONFIGURE • INTEGRATE
TROUBLESHOOT • MAINTAIN**

WHY GET TRAINED?

- ✓ Build Professional Credibility
- ✓ Validate Your Skills
- ✓ Expand Your Career Opportunities
- ✓ Increase Your Professional Value

SKILLS YOU WILL DEVELOP

IP NETWORKING

CCTV & VIDEO SURVEILLANCE

VMS

ACCESS CONTROL

TROUBLESHOOTING

SYSTEM DESIGN

HANDS-ON • PRACTICAL • INDUSTRY-RELEVANT

Our training focuses on learning by doing, with exposure to actual security-system components and practical applications.

PRACTICAL EXPOSURE WILL INCLUDE:

IP Cameras

DVR / NVR

Network
Switches

VMS
Software

Access
Controllers

Readers

Recording
Systems

Security System
Components

You don't just learn
WHAT a system does.
You learn

**HOW IT WORKS •
HOW TO CONFIGURE IT •
HOW TO
TROUBLESHOOT IT**

Arham Computer & Robotic Centre

Shri Kathiawad Stahnakwasi Jain samaj - Ghatkopar

Rashtrasant Param Gurudev Shree Namramuni Maharaj Saheb Prerit

**8169827233
9653157572**

Teaching Since 1992

100% Practical Focus

One and Only Robotic Lab of Ghatkopar

Taught more than 50,000 Students

CAREER OPPORTUNITIES

Your training can help prepare you for opportunities such as:

Security Technician

CCTV Technician / Installer

Security System Integrator

Access Control Technician

Loss Prevention Specialist

Security Consultant

Security Project Coordinator

Aspiring Security Entrepreneur

COURSE HIGHLIGHTS

Comprehensive Curriculum
Covering latest technologies

Real-World Practical Training
Work on live systems & projects

Industry-Standard Equipment
Hands-on with latest devices

Certification
Boost your profile & credibility

Placement Guidance
Resume, interview & job support

Lifetime Technical Support
We are with you, even after the course

WHAT YOU WILL LEARN

- IP Networking Basics for Security Systems
- CCTV Technologies: Analog, HD, IP, 4K, AI Features
- DVR, NVR Configuration & Management
- Video Management Systems (VMS)
- Network Switches & Cabling
- Storage & Recording Solutions
- Access Control Systems & Components
- Biometric, RFID, PIN, Face Recognition Systems
- Time & Attendance Integration
- System Design & Planning
- Installation Best Practices
- Troubleshooting & Maintenance
- Remote Monitoring & Mobile Access
- Cybersecurity Basics for Security Systems

WHO CAN JOIN?

Students

IT / Networking Professionals

Electricians / Technicians

CCTV Installers

Working Professionals

Career Changers

Aspiring Security Entrepreneurs

WHY TRAIN WITH US?

PRACTICAL HANDS-ON TRAINING

INDUSTRY-RELEVANT CURRICULUM

EXPERT INSTRUCTION

CERTIFICATION TO BOOST YOUR CAREER

CERTIFICATION CAREER

JOB ASSISTANCE & CAREER GUIDANCE

MODERN LAB WITH LATEST EQUIPMENT

Risk-Free Trial Class

Experienced Instructors - 25+ Years Experience

Taught more than 50,000 Students

Continuous Growth Tracking

Personalized Attention: Small Batches

Live AI Support

Most Reasonable Fees

Dedicated 1:1 Support

Lectures on Smartboard

ONE AND ONLY ROBOTIC LAB OF GHATKOPAR

Arham Computer & Robotic Centre
